Scheuring Road interchange construction beginning Monday

Modifying northbound US 41 entrance ramp

(Green Bay) The Wisconsin Department of Transportation (WisDOT) Northeast Region is announcing ramp modification at the Scheuring Road interchange will begin Monday, March 25, in Brown County. The northbound US 41 entrance ramp modification at Scheuring Road is needed to improve traffic operations.

The work will be completed in two stages in order to keep the ramp open during construction.

Details of stages are included below:

- Stage one will keep the by-pass lane open and close access to the ramp from the roundabout (see enclosed map). Traffic eastbound on Scheuring Road will need to continue east to the Scheuring/Lawrence roundabout and make a U-turn and then utilize the by-pass lane at the ramp.
- Stage two will open the access to the ramp from the roundabout and close the by-pass lane. All westbound traffic will need to enter the roundabout to access the ramp.

All lane restrictions are weather dependent and subject to change.

Visit us on [Facebook](#) and follow us on [Twitter](#) for additional details on US 41 traffic impacts and lane closures in Brown and Winnebago counties.
